Why Sin City Laryngology?

Since February 2005, we have featured countless speakers and thousands of participants. The presentations are topical, cutting-edge, and varied. Unique to this course, though, is the level of entertainment mingled into the education, which keeps the attendees engaged and coming back year after year.

But don't take our word for it (we're a little biased), take it directly from the attendees themselves:

"Excellent conference! I very much enjoyed the humor and entertainment intertwined with the remarkable presentations! Made for a highly memorable first conference, and I will DEFINITELY return!"

"Fantastic course highlighting recent research and a need for a multidisciplinary approach."

"Most fun I've had at a conference...ever."

"The topics presented are diverse and forward-thinking."

"I look forward to this conference every year!"

"This was so much fun! I feel as if I will be returning to practice with such a wealth of new information!"

"Very fun, informative, and useful conference. Thank you!"

"Superb overall conference. I like the short presentations, and fun mixed in with content."

"This was an awesome course — no more needs to be said."

EDUCATIONAL OBJECTIVES

At the conclusion of this CME activity, each participant should be better able to:

- Describe the treatments of irritable larynx and neurogenic cough
- Discuss and demonstrate the techniques for treating lymphedema of the head and neck
- Describe the manifestations of phonotraumatic lesions
- Discuss manifestations of post-stroke and Parkinsonian dysphagia
- Describe voice therapy treatment for the aging voice
- Describe the different ways to evaluate esophageal dysmotility
- Discuss techniques for transgender voice therapy

Please check our website for the updated brochure, in the event that ASHA requires any modifications.

ACCREDITATION

Endo Education is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. **See course**

information for number of ASHA CEUs, instructional level and content area. ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

This course is offered for up to 2.5 CEUs (Intermediate Level, Professional Area)

NEEDS ASSESSMENT

This course is designed for otolaryngologists and speech pathologists who wish to enhance their understanding of the advanced diagnostic and treatment options for individuals with complex swallowing and voice disorders. Participants will be presented with a thorough understanding of the biomechanics of normal and pathologic voice and swallowing function. Disease diagnostics will be discussed in detail including fluoroscopy, endoscopy, and manometry. In addition, participants will gain knowledge of the state-of-the-art treatments for voice and swallowing disorders, both with therapy and surgery. Participants will also gain knowledge in the treatment of benign laryngeal lesions, vocal fold paralysis, and inflammatory and traumatic lesions of the larynx. They will learn the medical, behavioral and surgical approaches of laryngeal/vocal/swallowing disorders.

ENROLLMENT AND CANCELLATION

Please register early – space is limited. Early tuition for Sin City Laryngology is \$775 for physicians and \$410 for all others. Tuition will increase \$50 after January 20, 2018. Confirmation of registration will be sent via email within two weeks after receipt of payment. **Tuition may be paid by check or credit card, but must be received in advance of the course.** Cancellations after February 1, 2018 will be refunded less a \$50 administration fee.

Saturday, February 24, 2018

The pre-conference will focus on voice therapy throughout the lifespan. Considerations for pediatric voice therapy and techniques to address lesions in school aged children will be presented. The aging voice will be addressed exploring characteristics of aging and how to maximize voice in the presence of associated change. We will also cover topics in between, including voice therapy for lesions and glottic insufficiency. Case studies across the age spectrum will be presented.

Audience: Intermediate level; open to both MDs and SLPs

Presenters: Sarah L. Schneider, MS, CCC-SLP, Maia N. Braden, MS, CCC-SLP, Aaron M. Johnson, PhD, CCC-SLP

The cost for the workshop is a separate registration fee from the main conference:

\$130 if postmarked before Jan 20, 2018

Bring a Friend/Colleague Program

Many of our amazing attendees come back year after year (who can blame them—it's an awesome conference!)...and we like to think first-timers will be back. And, with a learning opportunity this fun—and with so many CMEs/CEUs in one place, it's the perfect event to share with a colleague. So docs, bring your SLP; SLPs, bring your doc. It's also a great opportunity to reconnect with colleagues from across the country you haven't seen in a while.

Now you can be rewarded for doing the things you plan to do anyway—bring a colleague (or two or three) this year and come back next year!

Here are the details:

- You can bring up to three colleagues and receive the following discounts on **next year's tuition**:
 - \$25 if you bring one person
 - \$45 if you bring two people
 - \$65 if you bring three people!
- The colleagues you bring must be first-time attendees
- Only one person may claim the new attendee
- You must both/all register, pay, and attend **this year's course**
- This program applies only to the main conference, not the optional workshops
